UX/UI DESIGN EXPERIENCE

Freelance UX/UI & Web Designer | Self-Employed

Jan 2024 – Present

- Freelance UX/UI & Web Designer | Self-Employed | Jan 2024 – Present
 - Design digital experiences from problem definition through information architecture, user flows, wireframes, prototypes and high-fidelity interface design.
 - Conduct competitor research and user-focused analysis to inform navigation, layout and interaction decisions.
 - Create responsive interfaces in Figma and build working web experiences using HTML, CSS, JavaScript and Webflow.
 - Present design work to clients, gather feedback and revise designs around user needs, business requirements and technical constraints.

Selected Freelance Client Engagement: City of Hope | Jan 2024 – Mar 2025

- Designed training and support materials used in programmes supporting people in recovery from substance addiction.
- Translated programme information into clear visual materials for use in counselling, support and learning settings.
- Considered the audience, context and purpose of each material when structuring and presenting information.
- Worked from the organisation's existing information and req.

SELECTED UX PROJECTS

Tshwane Transit | UX/UI Design Case Study

Designed a digital public transport experience focused on helping passengers plan, track and navigate bus journeys, from problem definition through information architecture and high-fidelity prototyping.

Rebus Brokers | UX/UI Design Case Study

Redesigned an insurance platform with a focus on simplifying complex broker workflows through clearer information architecture, navigation and interface design.

Thrive Support Network | UX/UI Design Case Study

Designed a case management dashboard for social workers, focusing on simplifying complex information and improving workflow clarity across reporting and case-management tasks.

PROFESSIONAL EXPERIENCE

Customer Service Associate | Woolies Dash

Nov 2022 – Dec 2023

- Managed high-volume customer interactions across phone, email and digital channels, resolving questions, complaints and service issues.
- Identified recurring customer pain points and patterns in feedback to understand where service experiences were breaking down.
- Communicated clearly and empathetically while working within established service processes and requirements.

Programme Administrator | Family Health International 360 (FHI 360), Johannesburg

Feb 2021 – Sep 2022

- Coordinated information, schedules, deadlines and stakeholder requirements across 15+ concurrent programmes.
- Produced recurring reports and dashboards for internal and donor stakeholders, turning programme information into clear updates for decision-making.
- Introduced a data-validation process in REDCap to improve reporting accuracy and maintained structured information across multiple programmes.

Project Assistant | Solmag Construction and Projects, Rustenburg

Feb 2019 – Jan 2021

- Managed project schedules, documentation and stakeholder communication across multiple concurrent projects.
- Maintained structured project information and supported day-to-day project coordination.
